		EASTCOTE RESIDENTS' ASSOCIATION
		Notes on Meeting held
		Thursday 1st July 2021, at 7.30 p.m. by Zoom
		Present: ERA committee members (11), Residents (2). Cavendish Cllr Eddie Lavery (left 20.03). Eastcote & East Ruislip Cllrs Becky Haggar, Ian Edwards (apologies), Nick Denys.
1.		Welcome
	1.	 Residents' issues. 1. Resident reported that ERA website 'contact us' not working. 2. Wildflowers causing visibility problems due to height reported to council and were promptly cut back as this was a safety issue. Chair thanked council. 3.Speeding in Cheney Street to be mentioned at next SNT meeting. 4. Issue raised regarding difficulty signing in, to access council services, which appears to require multiple passwords. Cllr EL to investigate.
2.		Notes for 90 th AGM held 1st June 2021- Approved
		Notes for meeting held 29th April 2021- Approved
3.		Committee Reports
	1.	 Flooding – Eflag meetings held 25th May (notes circulated to committee) and 21st June (notes still to be circulated) when discussed the Hillingdon Flood Action Plan: <u>https://modgov.hillingdon.gov.uk/documents/s51721/Flood%20Action%20Plan.pdf</u> Related point: access to roads/gullies being cleaned impeded by parked traffic. Would informing residents when work due help.
		2. HARA – Hillingdon Hospital Redevelopment link: https://thh.nhs.uk/redevelopment/plans/
		 3. HS2 – Cllr Lavery held meeting with the local representatives who meet with the HS2 Community Engagement Team to discuss any issues of concern. It was a very useful and hopefully it will become a regular event. 1.Community Engagement
		 Information currently on Commonplace is being migrated to HS2 own site. If you currently receive notifications you will still need to sign up. <u>engagement.hs2.org.uk/join-mailing-list</u> Water Quality Webinar – unfortunately no sound! 2. HS2/LBH Traffic
		 Movement of heavy Vehicles - HS2 Vehicles refuel on site. Residents requested better signage to keep HS2 vehicles on route – no control over this if moving on to another job. Some contractors fitting tracking devices (repeat offenders will be suspended) and LBH have asked for access to this data. Lorry holding area created on site for vehicles arriving ahead of schedule so no need for them to park up on local roads. Series of trial holes being dug along Ickenham Road so there will be narrow lanes and delays. Also utility works along West End Lane
		 4. H4All – ERA only recently invited to attend. Set up to maintain communication, share key information, build trust and wellbeing. Still mainly Covid related but those attending felt it was a useful forum and that there was a future for such a meeting as missed Community Voice. LBH no longer has highest rate in London as the rest have caught up!! Surge testing finished. Local organisations asked to promote vaccination by displaying posters which I am waiting to receive.
		 Also raised – when would GPs be seeing patients face to face and long wait for phlebotomy appointments.
	2.	Environment
		1. ERA has sent an email response to the Council's consultation on their draft Climate Change Action Plan. It has since been discovered that the Council conducted webinars with Residents' Associations during the consultation period, but that ERA was unfortunately not invited owing to a technical issue with the Council's list of Residents' Associations. This was a significant missed opportunity for ERA, but we are assured that the list has now been updated, so that nothing similar should happen in future.

	1	
		Cllr EL apologised for this administrative error and was asked to check if there was anything else that ERA had
		not been informed about.
		2. Article about fatbergs and dry mixed recycling being drafted. There is progress on both, but advice from
		West London Waste - about the "wipe the pan with kitchen roll and recycle it in food waste" issue appears to
		conflict with what L.B.Hillingdon is saying.
		1. Eastcote Conservation Panel – Chair has accepted invitation to speak to judges re. London in Bloom which is
		taking place on Thursday 15 th June 2021.
		2. London Green Belt Council – Full LGBC zoom meeting is planned for 7 July. In the meantime, a situation has
		arisen whereby the Planning Inspector has allowed an appeal for a housing development on Green Belt
		designated land straddling the boundaries of Colney Heath and St. Albans LAs despite opposition from both
		those Councils on the basis that whilst harm to the Green Belt is recognised the housing need is the "greater
		good". The Chairman of LGBC has now written in some detail to The Prime Minister requesting this decision be
		overturned.
	3.	1. Planning Report discussed at meeting. Help or further information on specific cases can be requested by
	5.	emailing planning@eastcotera.co.uk.
		LBH Consultation on Statement of Community Involvement on planning issues is taking place – JR and
		LC will go through the document and send in a response. JR is attending a Teams Forum with other
		Residents' Associations on 20 th July
		The previous North Planning, South & Central and Major Applications Committees have now been analgemented into any Minor Applications Committee
		amalgamated into one Minor Applications Committee and the Major Applications Committee
		• We are awaiting a list of the personnel and their job titles in the new in-house LBH planning structure
		now that the externally sourced Terraquest contract has ended
		2. Town Centre
		1. Licensing – Three wishes – it was questioned whether there is an approved licence in place - post this
		meeting it was proved that this was granted in September 2020
	4.	Policing – OWL app – android or apple phone. Launched 1 st July 2021.
	5.	Travel
		1. FOMLUC – Zoom meeting Tuesday 15 June was poorly attended by Members.
		1. The Circle and Hammersmith and City line will have no service for about a week in August due to planned
